

# eLibrary®

Research Made Easy

eLIBRARY™

Open even more eyes

Find even more answers

Explore even more subjects

eLibrary®—the affordable and user-friendly general reference tool—is the perfect resource for delivering full-text and multimedia reference essentials.

## A starting point for student inquiry

eLibrary features a powerful user interface designed to make research easy. Students find the answers they need from more than 2,500 full-text magazines, newspapers, reference books, and transcripts—plus thousands of pictures, maps, weblinks, and audio/video files.

Using natural language or Boolean search, students can type a question, phrase, or keyword. Students may also search or browse by topic, reference desk, or publication. They can sort their results by relevance, date, file size, Lexile/reading level, publication, or source. And they

can create marked lists, or view, print, or email any document or image in one easy step.

Other features in eLibrary® help save time and make research even easier.

- **State and national standards** search locates standards-aligned resources, which cuts lesson-planning time and ensures that library resources correlate directly to learning benchmarks.
- **Topic search** locates resources indexed to more than 18,000 topics relevant to K-12 curricula and interests. Common topic results, find more documents like this, and search within a

topic features quickly guide users to the more relevant resources.

- **Reference search** gives students the basic subject information they need to start the research process using hundreds of e-books.
- **BookCarts and QuizCarts** allow educators to create student activities, study units, test, and more. Plus, more than 600 pre-built BookCarts help educators immediately integrate eLibrary into the classroom.

eLibrary makes it easy to build the research skills necessary for academic success.

**With eLibrary,** your students can:

- **Access** more than 2,500 full-text magazines, newspapers, transcripts, and reference books
- **Examine** a variety of media types including streaming audio and video, weblinks, maps, and pictures
- **Navigate** an easy-to-use interface that engages and motivates learners
- **Utilize** standards-aligned content correlated to students' learning benchmarks
- **Incorporate** multimedia information to enrich projects and research
- **Select** from multiple search strategies that benefit all levels of research skills and needs
- **Sort** search results to determine appropriateness (sorting by relevance, date, reading level, and more)
- **Create** relevant, appropriate instructional material quickly using BookCarts and QuizCarts
- **Go** "To the best part" to find the most relevant portion of an article

### About K-12 resources

Since 1938, ProQuest has served as a global leader in collecting, organizing, and distributing value-added information to researchers, educators, and students in libraries, government, universities, and schools in more than 160 countries.

Our eLibrary®, ProQuest®, and SIRS® educational resources unite high-quality content, standards-based curriculum, and online technologies—helping schools deliver on the promise of technology to develop educators' skills and improve student achievement across the curricula.

**Quality information from seven media types**
